SUMMARY

Frontend-focused software developer experienced in building responsive and animated web interfaces using React, Node.js, Express.js, MongoDB, JavaScript, TailwindCSS, and GSAP. Skilled in deploying projects on Vercel and working in Linux environments. Passionate about clean UI, performance optimization, SEO optimization, and creating engaging digital experiences.

EDUCATION

Satyug Darshan Institute of Engineering and Technology

B.Tech in Computer Science and Engineering

Faridabad, India

2024 – 2028

PROJECTS

SKINSHY - A Personalized Cosmetic Product Finder | *React, Node.js, Express.js, MongoDB, TailwindCss*

- Built a platform that helps users determine whether cosmetic products are suitable and safe for their skin type based on basic user inputs.
- Focused on clean UI/UX and interactive frontend experience to make the platform simple, responsive, and user-friendly.
- **Project Link:** skinshy.vercel.app

ATTIRER - A Personalized Platform for Dress Combinations | *React, Node.js, Express.js, MongoDB, GSAP*

- Developed a platform where users can upload their existing clothes and receive outfit combinations based on their wardrobe.
- Implemented an Artificial Dress Suggester feature that generates outfit combinations according to user preferences.
- **Project Link:** attirer.vercel.app

HACKATHONS

Smart India Hackathon 2025 (Finalist) – Roghar | *Digital Health Record Platform*

- Developed a healthcare platform designed for migrant workers to securely access and manage medical records digitally.
- Focused on accessibility through multilingual voice support and integration with government healthcare schemes.
- Emphasized data privacy, portability, and user-friendly healthcare access.

TECHNICAL SKILLS
